

MENTEE

Konan Jeanne-Armelle

CEO, Biosave-Ci

Konan Jeanne is CEO of Biosave-Ci, an organic fertiliser production and marketing company in Côte d'Ivoire. The fertiliser is made from recycled organic agricultural waste combined with micro-organisms. It improves soil structure and fertilizes the soil naturally, while protecting its health and the environment. Biosave also has a digital application that enables farmers to learn how to recycle their own waste into compost.
