Lynnet Nakidde

Founder and CEO,
Biofertilizer Centre for Youth Empowerment

[Website](#)

Lynnet Nakidde is the founder and CEO of the Biofertilizer Centre For Youth Empowerment, a Uganda-based company that produces different kinds of organic fertilizers. Lynnet's company produces and sells 100 percent organic fertilizers, including bocashi, vermi-compost and tea plant-based fertilizers.

True to its name, the Biofertilizer Centre for Youth Empowerment also provides training for local youth on the manufacture and application of these kinds of organic fertilizers. These fertilizers are produced and sold together with the youth around the greater Masaka region in Uganda in order to improve youth standards of living, address agroecology and also protect and conserve the environment.
