Yolande Nankeng

Founder, Extrait Végétal Sarl

Yolande Nankeng is the founder of Extrait Végétal Sarl, a company specializing in processing of fruits and vegetables into products of high nutritional value such as juices and smoothies for people wanting to put their health first.

Raised in a single-parent household, Yolande had to learn to work quickly in life to support her then unemployed mother. She ranks honesty, integrity, simplicity, and the love of her neighbours as just a few of the values that her mother instilled in her to help face life's difficulties.

Fascinated by vital hygiene, Yolande accomplishes her life mission by organizing seminars, workshops, and nutritional support to enable people to find well-being through food. Extrait Végétal Sarl's ambition is to be the first natural juice production industry in Cameroon and is the promoter of the APON natural fruit juice brand.

Yolande was born in Bafoussam in the high hills of west Cameroon and now lives in Douala, Cameroon with her husband Patrice and their five children.
