**Hawa Ajuma Salifu**

CEO, Hasanta Integrated Farm Enterprises

Nigeria

Hawa Ajuma Salifu is the CEO of Hasanta Integrated Farm, located at Abuja, a fish farm mainly into catfish seed production and processing. She holds a degree in Fisheries and Aquaculture with a huge passion for youth and female involvement in fish farming where she carries out free on-farm and online training programs to train youth and particularly women on fish farm management, Catfish seed production and Fish processing. A Strategic and innovative thinker, she is also a consultant that has helped build sustainable fish farms within Abuja and other neighbouring States.

**AIS Solutions**

Hasanta Integrated uses solar to power heat bulbs in order to increase the temperature in the hatchery and consequently increase the hatchability of catfish seed (fingerlings/ juveniles) in hatcheries. The farmers are also able to control the temperature of their hatchery and hatch all year round to ensure the continuous availability of fish seed regardless of the season.
